

Trimble **LOADRITE**

Payload Management

for Trimble Earthworks
Grade Control Platform

Reengineered from the ground up...

Innovative + Intuitive

Leverage your **Trimble® Earthworks Grade Control Platform** to load more in less time. Integrated payload management increases mass haul productivity and efficiency to improve the bottom line. Track bucket-by-bucket payload and monitor mass haul progress from the same powerful Trimble Earthworks display.

State-of-the-art software and hardware give operators of all skill levels the ability to work faster and more productively than ever before.

Increase the versatility and profitability of your excavator and maximize your machine control investment with integrated payload management.

PAYLOAD MANAGEMENT INTEGRATION

With the addition of Trimble LOADRITE Payload Management, you can avoid overloading and underloading to be more efficient and manage costs. Featuring dynamic weighing, accurately weigh without interrupting your workflow or loading process.

Combining machine control and payload management onto the Trimble Earthworks platform increases the versatility and profitability of your excavator, empowering operators to not only grade to within a given specification, but also maximize every truck haul to get the job done quicker. LOADRITE Payload Management for Earthworks can be installed onto any conventional excavator along with Trimble Earthworks, regardless of make or model.

INTUITIVE SOFTWARE, RUGGED HARDWARE

Our innovative, next generation payload management system includes reliable LOADRITE accuracy in an intuitive, easy-to-use Android touch-screen tablet. The Trimble Earthworks payload management app runs on the 10-inch (25.7 centimeter) Trimble TD520 Display. The software was created in collaboration with construction equipment operators around the world, so the interface is optimized for ease-of-use and productivity. Colorful graphics, natural interactions and gestures, and self-discovery features make Earthworks intuitive and easy to learn.

Trimble **LOADRITE** Payload Management: for Trimble Earthworks Grade Control Platform

Key Features

- ▶ Subcontractor management, track and monitor loading of trucks and tons moved
- ▶ Two productivity tools within one streamlined interface
- ▶ Mixed fleet compatible
- ▶ Weigh in motion with dynamic weighing
- ▶ Ability to maximize tons per liter (gallon) and minimize fuel usage of excavators and trucks
