

A DIRT + DRONE BREW & LEARN

LEARN WHAT TRIMBLE
STRATUS CAN DO FOR
YOUR WORKSITE—AND
HOW TO KICKSTART A
PROGRAM.

MAP, MEASURE AND MANAGE YOUR WORKSITE

Whether you're already leveraging drones, or wondering how adding to your toolkit would make a difference, this is an event you need to attend if you're interested in exploring what drone solutions can do for your aggregate, heavy civil construction, or waste management business.

SITECH NorCal is partnering with Propeller to bring you this presentation on Trimble Stratus®. Optimizing drone data to map, measure, and share accurate worksite information across your operation. Make better informed, data-driven decisions faster, avoid mistakes, and grow profits.
